UHF1000

USB
10/100M Fast Ethernet
1M HomePNA Adapter

This USB to 1M HomePNA & 10/100M Fast Ethernet Adapter offers instant connectivity to multiple PCs over a home's existing telephone lines. Every standard telephone jack in the home is capable of hosting a PC - you can connect up to 25 computers, thus transforming the home's telephone wiring into an easily expandable network. This adapter connects to your Windows 98 computer via USB that allows the true Plug & Play connectivity. The home phoneline networking is really that easy and simple!

FEATURES

- Plug & Play compatible with Windows 98/2000/ME/XP for easy installation.
- One B-type USB port for a standard USB cable
- No external power required.
- Dual-speed RJ-45 port autosensing 10BaseT/100BaseTX.
- 1Mbps transfer rate over standard telephone lines.
- Connects up to 25 computers on the Home Phoneline Networking.
- Easy PC resource/Internet access sharing
- Easy-to-read LED indicators.
